Reflections on Folio Thinking

"To better understand our current potential for success, all we have to do is reflect back at what we've already achieved."
Vincent Plowman, Psychology - Graduate - Kennesaw State University 2007
 & KSU 4401: Senior Seminar Student Spring 2007

"Use Folio Thinking to Honor, Understand, and Connect Your Learning From Self to Global Society, for the Betterment of the World"
        Dr. Joan E. Leichter Dominick

E-Portfolio as Kaleidoscopic Process: Reflective View from Self to Global Society:
Just as a kaleidoscope needs light to view the endless possiblities of visual combinations of the colored glass, a e-portfolio provides the illumination for the learner to view the endless possibilities of the potential views and connections of her/his learning experience from self to global society.

WELCOME

Welcome to the "Get Global" website! Global learning continues to grow in importance at KSU. At KSU, we have had almost two decades of institutional engagement in international and intercultural education. We are now poised to advance to a new level of effectiveness in which all KSU graduates are prepared as global citizens.

As part of our institutional accreditation in 2006-07, we have launched a Quality Enhancement Plan (QEP) with a focus on global learning for engaged citizenship that will be implemented from 2007 to 2012. Over the next five years, there will be a focus on providing more visibility to KSU's current global learning opportunities and increasing opportunities for students, faculty, staff, and administrators. The "Get Global" and QEP initiatives support KSU's 2007-2012 strategic plan of "preparing students to be leaders and creating a campus culture that assures an appreciation of diversity."

The transition into and out of college can be both exciting and scary. There are new challenges, unwritten rules, and opportunities for advancement — and embarrassment — around every corner. Wouldn't be great if there were an easy-to-use, reliable resource that offered college students the tools and information they need to achieve success during these transitions? Now there is!

Life After Graduation, LLC, and it's partners, have developed an extensive selection of resources, tools and information students need to achieve academic, financial and career success as they transition into and out of college.
